

When they ask  
what you did  
at work today,  
say you  
changed a life

Your generosity has the power to transform lives. By donating to HealthPartners, you're not just supporting one charity — you're backing a collective of 17 of the most respected health charities in Canada.

Thanks to donors like you, in 2023 alone, our health collective reached over 30 million people in communities like yours across the country. We also provided vital programs to over 5.6 million people in Canada, invested \$114.4 million in life-saving medical research, and so much more. Together, we are a force that is truly greater than the sum of its parts.

The 17 health charities  
you'll support

Your Donation in Action

- \$5** per pay: Provides a child with arthritis an ergonomic backpack filled with resources and a comforting plushie.
- \$10** per pay: Increases access to implicit bias training that helps organizations identify and eliminate structural inequities in their mental health programs, policies, and services.
- \$20** per pay: Eases the burden of cancer on one family for six months by helping them get to and from their child's cancer treatment.
- \$50** per pay: Sends two children with kidney disease to camp, giving them care and their parents respite.
- \$100** per pay: Funds fellowships to train the next generation of Parkinson's specialists, ensuring faster, higher-quality care in Canada.

Give like it's the person you work with. Because it probably will be. 90% of people are likely to rely on at least one of these health charities at some point in their lives. Please donate today.
